

Has-been Rocket Scientist

Rocket Scientist, once sexy job of the mid-20th century, now obsolete and bypassed by the modern world.

Math & Statistics

- Machine building.
- Plays with model trains.
- Math OK when necessary.
- Statistics = \sqrt{N} .
- Thinks if you need fancy statistics, you should do a better experiment.

Programming & Data Base

- Only programs in FORTRAN.
- Unsure of what an SQL is.
- Speaks Natural Language
- Never heard of a custom reducer or xaaS.

Domain Knowledge & Soft Skills

- Loves geeky things.
- Curious about entirely impractical things.
- Marginal influence and zero authority.
- Tries to solve problems most people don't care about.

Communication & Visualization

- Mumbles a lot.
- Has never met senior management.
- Sketches look like chicken scratches.
- Flare is something they have on the Sun.
